Samantha-

Yesterday, I had to file another “illegal dumping in progress” report with LA311 (ref. SR 1-144260679). If you are able to access the request, there are photos attached showing a vacuum cleaner, plywood, an air filter and various containers that could be hazardous materials, all being left either in our parking lot or the adjacent alley. I even had to pick up and remove FECES that had been left in plastic bags near our trash containers.

We are now locking the trash and recycle bins at night but that has only exacerbated the illegal dumping issue. Whatever can't be directly placed in the bins is being left along side them or in the alley.

This situation is untenable and is creating a health hazard for the tenants of our building. We are now forced, at great expense, to put a fence around our property in order to protect it. But that will not stop the illegal dumping. People will just continue to leave their refuse, and feces, outside the fence in the alley. And it will only be a matter of time before someone breaks the lock on the fence, or damages the fence itself, to gain illegal access to our parking lots.

The same vehicles have been camped on Rincon Avenue for months, just a few yards from the very residential neighborhood in which they are not permitted to park. I visited the police station again yesterday but unfortunately was told there is very little they can do other than run the license plates (which are all current). Even if the DOT were to sweep this portion of the street, cars would be back in a matter of a couple weeks, along with all the attendant problems.

I am pleading with you to DO SOMETHING! As a result of LAMC 85.02, the City Council has placed the responsibility of the homeless problem on the backs and shoulders of small property and business owners, and that is not right. Where are the large shopping center and other industrial property owners who have parking lots that go partially unused? Why aren't they being asked to provide a portion of their lots for safe parking lots. Westfield comes to mind. What about the old May Co. building on Laurel Canyon Blvd.? It has been vacant for years. Why isn't the city doing something with that property to provide safe haven for the homeless. Surely that would be a better solution than allowing homeless encampments alongside small businesses adjacent to residential neighborhoods.

I am requesting that Rincon Avenue/Van Nuys Blvd. be declassified as a “green zone,” that 72 hour parking/living be rescinded on this portion of Rincon Ave, and that parking restrictions be restored to what they were prior to LAMC 85.02. I make this request because of the unhealthy conditions, safety concerns and enormous inconveniences being inflicted on the adjacent residents, property and small business owners.

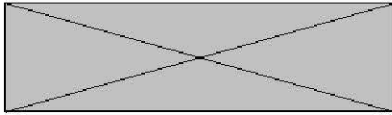

Thank you in advance for your prompt attention to this request.
